KMHARS IT SOLUTIONS
"BRIDGING BUSINESS & TECHNOLOGY"

COMPANY PROFILE / 2026

Bridging Business & Technology.

Fiber internet, enterprise connectivity and complete IT solutions across the whole of Lanao del Sur — built by the first ISP to operate after the siege, and still expanding.

01 — WHO WE ARE

A homegrown ISP that helped bring Marawi back online.

KMHARS IT Solutions is an Internet Service Provider and complete IT solutions company founded in 2017 and incorporated in 2024 as **KMHARS IT Solutions Corporation**, with its office at Awar Street, Marawi City, Lanao del Sur. We deliver high-quality fiber optic internet and end-to-end IT services to households, businesses, government agencies and non-government organizations across Marawi City and the whole of Lanao del Sur — with coverage still expanding.

We take pride in being the first ISP to operate after the Marawi Siege — helping rebuild the area's communication infrastructure at a moment when connectivity mattered most. Nine years on, that same commitment drives a fiber network that now serves thousands of homes and businesses province-wide, backed by first-priority enterprise service and AI-assisted customer support.

FOUNDED	SATISFIED SUBSCRIBERS	ENTERPRISE BANDWIDTH RATIO	AI-ASSISTED SUPPORT

Where it started — one of our early point-to-point links overlooking Marawi City, 2017.

From point-to-point links to a regional fiber network.

2017

Rebuilding after the siege

In the aftermath of the Marawi Siege, we recognized the urgent need for reliable, fast connectivity to support recovery efforts. We began with point-to-point wireless technology, allowing us to deploy internet service rapidly where infrastructure had been lost.

Nov 2017

Connecting the Provincial Capitol

We facilitated the communication needs of the Lanao del Sur Provincial Capitol, playing a crucial role in coordinating the region's recovery.

2022 – Present

Fiber optic rollout

In 2022 we began building our fiber optic network, moving beyond wireless to deliver markedly better speed and reliability — and we have been laying cable ever since. Along the way we earned the trust of government offices, cooperatives, hospitals and NGOs, and delivered custom systems for the Saguiaran Local Government Unit.

2024

From sole proprietorship to corporation

What began as a sole proprietorship was incorporated on 29 September 2024 as KMHARS IT Solutions Corporation, registered with the Securities and Exchange Commission — giving our clients a fully accountable corporate entity to contract with.

Today

5,000+ subscribers and a smarter service experience

Our network now covers the whole of Lanao del Sur — across the 1st and 2nd districts and the 3rd district from Marawi to Pantar — and we continue to expand into new areas. Subscribers manage accounts through self-service portals at **kmhars.ph**, and get round-the-clock help from KMHARS AI, our AI-powered assistant that understands both English and Tagalog.

Why it matters

Every kilometre of cable we pull is infrastructure the region owns the benefit of: students in online classes, clinics moving records, LGUs serving constituents, and small businesses reaching customers far beyond Lanao del Sur.

Connectivity built for every kind of user.

Reliable and future-ready internet solutions. From home plans to enterprise connectivity and hotspot business, each service is designed to keep you connected, supported and ahead — powered by proven expertise and AI-driven support.

HOME PLANS

For everyday households

Perfect for browsing, streaming, online classes and social media. Home Plans offer boosted speeds up to the advertised rate, depending on bandwidth availability.

- Great balance of performance and price
- Built for multi-device households
- Fiber optic delivery

ENTERPRISE PLANS

For business-critical work

Sustained, fixed speeds with first priority in our network queue, even at peak hours — smoother video calls, more reliable cloud access and better overall performance.

- True 1:1 bandwidth ratio
- No bursts, no dips — just consistent internet
- Priority response and support

HOTSPOT BUSINESS

For WiFi entrepreneurs

Become a WiFi reseller by distributing prepaid voucher tickets — ideal for sari-sari stores, small shops and community centers offering affordable access to the neighborhood.

- Low barrier to entry
- Extra income while connecting others
- Voucher and billing tools included

Coverage & subscriber portals

We serve the whole of Lanao del Sur and are actively expanding into new areas. Subscribers manage billing, vouchers and account details online, 24/7.

COVERAGE AREA

1st & 2nd District

billing.kmhars.ph/client — Client Login
billing.kmhars.ph — Voucher / Billing Info

COVERAGE AREA

3rd District — Marawi to Pantar

kmhars.com/subscribers — Client Login
kmhars.ph — Company website & support

KMHARS AI — support that never sleeps

Our AI assistant, available at kmhars.ph and binary.ph/kmhars, answers subscriber questions in English or Tagalog, accepts payment screenshot uploads, and hands off to our team when a human touch is needed. Payments made through GCash Bills > KMHARS are recorded automatically — no screenshot required.

04 — IT SOLUTIONS

A complete IT partner, not just an ISP.

Connectivity is where we start. We also design, build and maintain the systems that run on top of it — for LGUs, agencies, cooperatives and growing businesses across the region.

01 Custom software development

Systems built around how your office actually works, from records and permits to reporting.

02 Network design & implementation

Structured cabling, wireless and fiber network builds designed for growth and uptime.

03 IT consulting & project management

Planning, procurement guidance and delivery oversight for technology projects.

04 IT infrastructure management & support

Ongoing administration, monitoring and responsive technical support for your environment.

05 Cybersecurity services

Hardening, access control and monitoring to keep operations and data protected.

06 System integration

Connecting platforms and data sources so tools work together instead of in isolation.

Case in point — Saguiaran Local Government Unit

We successfully developed and implemented systems for the Saguiaran LGU, streamlining day-to-day operations and improving efficiency for frontline government services.

05 — OUR CLIENTS

Trusted by the institutions the region depends on.

Provincial Government of Lanao del Sur
Government · Connectivity

Department of Public Works and Highways
DPWH · Government agency

Lanao del Sur Electric Cooperative
LASURECO · Utility cooperative

Amai Pakpak Medical Center
APMC · Healthcare

Government offices & NGOs
Marawi City and surrounding municipalities

Four reasons organizations stay with us.

Experience

A proven track record of delivering high-quality internet and IT solutions in the Marawi region since 2017 — including in its most difficult years.

Expertise

A team of skilled network engineers, developers and technicians delivering services tailored to your specific requirements.

Reliability

We prioritize the stability and performance of our fiber network, with first-priority queueing for enterprise clients.

Support

Responsive human support through our helpline and Messenger, plus AI-powered assistance available around the clock.

VISION

To be the leading ISP and IT solutions provider in the region, contributing to the growth and development of Marawi City and the province of Lanao del Sur.

MISSION

To deliver innovative, reliable and cost-effective internet and IT solutions to our clients, fostering long-lasting relationships and supporting the region's progress.

The people behind the network.

KMHARS IT Solutions is owned and run by a team of experienced professionals who are experts in their respective fields, supported by field crews and a fully equipped service fleet.

OWNERSHIP

Network & wireless engineering

Deep expertise in network infrastructure and wireless technologies shapes the way we design, deploy and scale our network across Lanao del Sur.

OWNERSHIP

Systems integration

Specialist experience in system integration allows us to deliver seamless, well-integrated IT solutions to clients across government and business.

Our service fleet and field crews — ladders, splicing kits and technicians ready for installation and repair calls across the province.

Local team, local knowledge

Together, our owners and team bring a wealth of knowledge and experience to every project. Because we live and work in the communities we serve, we understand the terrain, the outages and the realities of building infrastructure here — and we keep KMHARS at the forefront of the IT industry in Marawi and beyond.

Registered, licensed and ready to contract.

KMHARS began in 2017 as a sole proprietorship and is today a duly registered corporation, authorized to provide value-added services in the Bangsamoro Autonomous Region in Muslim Mindanao.
